The geospatial data of the agency can be accessed and downloaded from the Geoportail Philippines (GP) by the general public at no cost. Along with the NAMRIA data, there are over 3,000 geospatial data uploaded/shared by partner agencies to the GP. The Lot Plotter Map App, wherein the general public can plot online the boundaries of land ownership based on the technical description to verify the accuracy of its shape and location, and the downloading of selected NAMRIA layers categorized as open further contributed to the high hits of the GP website.
