

QUARTERLY PHYSICAL REPORT OF OPERATION
As of March 31, 2025

Department : Department of Environment and Natural Resources (DENR)
 Agency/Entity : National Mapping and Resource Information Authority
 Operating Unit : < not applicable >
 Organization Code : 10 004 0000000

Particulars	UACS CODE	Physical Target (Budget Year)					Physical Accomplishment (Budget Year)					Variance as of March 31, 2025	Remarks
		1st Quarter	2nd Quarter	3rd Quarter	4th Quarter	Total	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter	Total		
1	2	3	4	5	6	7	8	9	10	11	12	13	14
MAPPING AND RESOURCE INFORMATION PROGRAM	31010000 0000000												
OO : Adaptive capacities of human communities and natural systems improved													
Outcome Indicator(s)													
1. Percentage of the Philippines with updated topographic base maps and nautical charts			34.94%	41.92%	44.31%	44.31% (new cycle maps)	-				-		
		85.60%	88%	90.40%	92%	92% (nautical charts)	85.60%						
			31.60%			31.60% (electronic navigational charts)	-				-		
2. Number of hits/access to the online database		112,500	112,500	112,500	112,500	450,000	177,685				177,685	+65,185	The over accomplishment is attributed to the: - Increased public awareness and demand for NAMRIA products and services resulting in high volume of access to the NAMRIA website and Geoportal Philippines (GP) website owing to the communication, education, and public awareness activities of the agency such as the information and education campaigns, tour of facilities for high school and college students, and geomatics trainings provided to local government units, national government agencies, the private sector, and other entities;

														- Downloading of geospatial data layers categorized as open (findable, accessible, interoperable, and reusable), which contributed to the high hits of the GP website in line with the implementation of the NAMRIA Open Data Policy. The most downloaded data layers are topographic maps and land cover maps; and - High demand for the NAMRIA Lot Plotter Application, which provides the general public with a facility to plot online the boundaries of land ownership for simple location verification, and the Predicted Hourly Height of Tide, which is vital to safety of navigation. The Tide tables in the NAMRIA website provide information on the time and heights of High and low waters which is vital to ensuring the safe passage of ships through shallow waters and narrow channels.
Output Indicator(s)														
1. Number of maps and charts produced or updated and published		2	383	1169	538	2,092	2					2		
2. Percentage of clients who rated the quality of maps and charts produced as satisfactory or better		98%	98%	98%	98%	98%	98.46%					98.46%	+0.46	Clients who acquired products and services from the NAMRIA provided a 98.46% positive response (Very Satisfied and Satisfied) in the Assessment and Evaluation for Client Needs and Products and Services. Among the 495 respondents, the private sector dominated as 45.66% of the clients are private companies and 24.65% are private individuals. The academia follows at 15.96%. The national government (environment and natural resources) is at 3.23% and the national government (others) account for 2.63%. The local government units represent the 6.06% and the government-controlled corporations represent the 1.01%. The other respondents are from the non-government organizations at 0.40% and foreign entities at 0.40%.
